

Independent Advice

Your Choice

PHONAK
life is on

We can advise you across brands of hearing aids. Often depending on your lifestyle and budget there may be a specific brand that has great outcomes.

ReSound

Phonak, ReSound, Widex, Starkey and other brands have some excellent options so why be limited to just one brand.

WIDEX

Looking for a Hearing Aid that excels in background noise?

Options include:

Phonak Virto Q90 \$4290 per aid

Resound Verso 9 \$4395 per aid

www.HearingAidsAustralia.com

If your hearing centre can't advise across all major brands you may be missing out on the best individual solution for you.

Often our audiologists will allow you to trial two different brands - this is ideal for getting a realistic comparison between brands.
